Experts from Industry, besides Institute's own faculty

Objective

Paper and Paperboard are considered as primary packaging materials. These also act as basic raw materials for the manufacturing of Corrugated Fibre Board Boxes. It is well known fact that the Corrugated Fibre Board Boxes are used extensively as unit bulk Packages. Due to great advancement of the converting technologies and also for the diversified packaging application, the "Need for the Hour" is to understand in depth about the converting technologies, machineries and quality aspects of raw materials as well as finished products. Keeping view in this aspect, the Institute has planned to organise this programme where the personnel from Production, Quality Control, Purchase and Marketing will have an opportunity to interact with the eminent experts of this field and to have an updated knowledge and information.
